NEW YORK.

BRANCH OFFICE, 70 STATE STREET, CHICAGO, ILL.

HYGEIA
LITHIA WATER.

The HYGEIA LITHIA WATER is the most valuable Lithia water, because it is always certain in its composition, never varies in strength, is free from any germ contamination, contains no sediment to irritate the kidneys, is absolutely pure, and is useful in all cases of acid diathesis, or in other conditions requiring an alkaline water.

The following are the published analyses of several of the "*natural*" Lithia Springs:

Gettysburg Lithia,	Trace	Lithium Bicarbonate.
Belmont "	0.006 grains	per Imperial gallon.
Wolf Trap "	0.033 "	" " "
Buffalo No. 2 "	2 25 "	" " "
Farmville "	3.76 "	" " "
Londonderry "	8.75 "	" " "

A combined Total of 14.799 grains per Imperial gallon.

HYGEIA LITHIA WATER contains 14.39 grains of Lithium Carbonate, WHICH IS EQUIVALENT TO 26.45 grains of LITHIUM BICARBONATE per Imperial gallon (the basis adopted in the above analysis of different springs).

HYGEIA LITHIA WATER is known to contain 14.39 grains of Lithium Carbonate per Imperial gallon, or 12 GRAINS PER U. S. GALLON, OR ALMOST TWICE AS MUCH LITHIUM BICARBONATE AS ALL THE ABOVE LITHIA WATERS COMBINED.

All spring Waters are variable, and the uncertainty and doubt of obtaining *even a trace* of Lithia, in some portion of the natural waters, leaves the percentage of Lithium Carbonate prescribed per dose, in uncertainty, whereas in the case of HYGEIA LITHIA there can be no doubt.

HYGEIA LITHIA WATER is indorsed by the highest authorities in this country and Europe.

When ordering Lithia Water, Still or Sparkling, ask for the HYGEIA LITHIA WATER. IT IS PURE AND RELIABLE. For sale by all druggists and grocers.

Sold only in cases, containing 12 half-gallon bottles of Still Water, 50 large bottles Sparkling, 100 small bottles Sparkling.

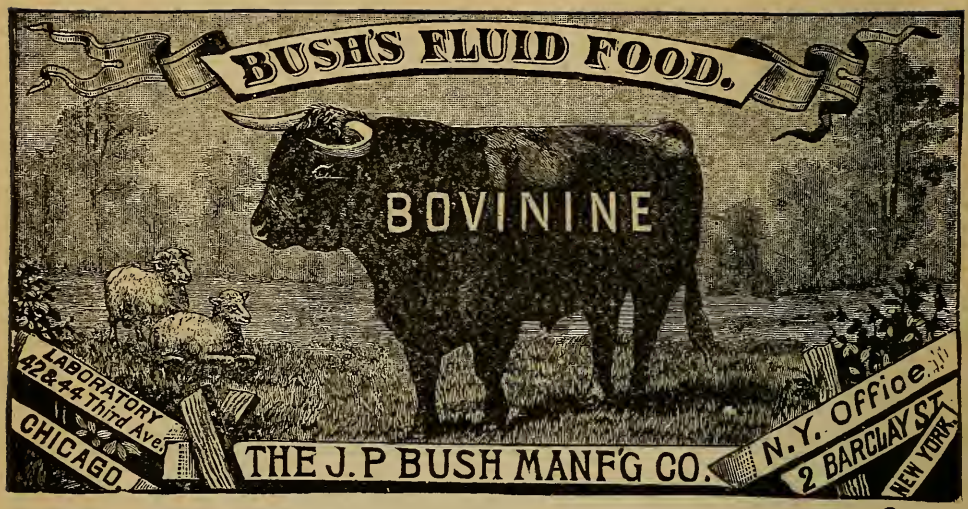
Opposite Murray Hill Hotel, NEW YORK



The vital principles of Beef concentrated. A highly condensed Raw Food Extract. Acceptable to the most delicate taste and smell. It does not become rancid, as ALL OTHER raw foods do. Retained by irritable stomachs that reject all other Foods. It assimilates more readily than any food known to the Medical Profession. Bovinine, under the microscope, shows the blood-corpuscles in their normal conditions strongly marked, while in other Foods or Extracts this vitally important element is destroyed by the action of heat in cooking.

In all disturbances of the intestinal tract accompanied by gastric irritation ; in cancer of the stomach or rectum ; in supplying the waste of albuminuria ; in the marasmus of infancy or old age ; in scrofulous conditions ; in phthisis, and in so-called dyspeptic conditions, Bovinine will be found of signal service, securing better nutrition and assimilation, and alleviating the conditions present. Bovinine is a *raw food* and is neither partially nor wholly digested, so that, when given in cases of enfeebled digestive powers, it does not still further increase the liability of the gastric forces to perform their work, but restores them by its physiological stimulation to their normal effectiveness.

This preparation is advertised in medical journals only, and is carefully prepared by the

Please specify "FRASER'S" in ordering or prescribing.

FRASER'S

TABLET TRITURATES.

MANY Physicians have formulas which possibly could be made in the form of Tablet Triturates to their advantage and to the convenience of their patients.

We will be happy to answer any correspondence regarding such formulas which, if satisfactory, form the means of enlarging our list and adding to the efficiency of this mode of administering medicines.

NEW TABLETS:

PAREGORIC, 5 drops.
BROWN MIXTURE, 1 teaspoonful.
BROWN MIXTURE, ½ teaspoonful.
"SUN" CHOLERA MIXTURE, ½ teaspoonful.

FRASER & CO.

Were the Original Manufacturers of WARBURG'S CAPSULES.

When simply WARBURG'S CAPSULES are ordered or prescribed, we dispense Capsules, each containing two teaspoonfuls of modified Warburg's Tincture, which has been inspissated at an even temperature, not exceeding 120° Fahrenheit, to the proper consistence, and put into medium-sized, soluble capsules. When any modification of this formula or size is wanted, it should be noted on the order.

We keep the following in stock, made from Modified Warburg's Tincture:

Warburg's Capsules, two teaspoonfuls each.
Warburg's Capsules, two teaspoonfuls each, ½ aloes.
Warburg's Capsules, two teaspoonfuls each, no aloes.
Warburg's Capsules, one teaspoonful each.
Warburg's Capsules, one teaspoonful each, ½ aloes.
Warburg's Capsules, one teaspoonful each, no aloes.

Made from Original Warburg's Tincture:

73 Trinitrin, 1-150 grain.
74 Trinitrin, 1-200 grain.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic- or Pocket-case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the Numbers, as above. These Tablets will be sent by mail, on receipt of the proper amount.

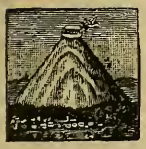
John Wyeth & Brother, Philadelphia.

MATZOON

OR

FERMENTED MILK FOOD.

PREPARED BY



MARKAR G. DADIRRIAN, M.D.,

213 Second Ave., cor. 13th St., New York.

(Of the New York University Medical College, 1871.)

And for many years resident and Practising Physician in Constantinople and Asia Minor.

MATZOON is a fermented milk food, in the liquid condition, and used extensively in Armenia and Asia Minor as a refreshing beverage and invalid's food. It has the great merit of being **easily digested, highly nutritious,** and is a grateful **refrigerant** in febrile diseases.

In all Gastro-Intestinal troubles, in any form of obstinate vomiting, as in pregnancy, etc., its effect is immediate.

As a cure and preventive for **Sea-sickness,** its efficacy is shown by the testimonials of numerous transatlantic passengers.

As given by Prof. S. H. Dixon, M.D., in his lecture to his class at the University of Pennsylvania:

"**Matzoon** contains but a trace of Carbon Dioxide; for this reason it is preferable to **Kumyss** in case of a weak heart Charged Waters, Champagne, and Kumyss are risky to give to a patient with a weak heart. The pressure produced upon the heart by the extension of the stomach wall is quite sufficient to produce death when the heart's action is very weak."

Specify Dr. Dadirrian's Matzoon to avoid imitations under similar name.

MATZOL

OR COD-LIVER OIL AND MATZOON.

MANUFACTURED BY

Markar G. Dadirrian, M.D. 213 Second Ave., N. Y.

The formula of **MATZOL** is as follows:

50 per cent. pure Norwegian Cod-Liver Oil.

40 per cent. Matzoon, and the rest Glyconine and Gum Acacia.

The advantages of **MATZOL** are as follows:

First.—Matzoon being a palatable article, will disguise the taste of the oil almost entirely, and make it very palatable.

Second.—Matzoon being a most easily digested article, will greatly help the digestion of the oil.

Third.—Matzoon being itself a total nourishment, will help the oil in building up the system, while in most other preparations the bulk is increased with non-nourishing articles.

Prof. William H. Thomson, M.D., in his lecture to his class at the University Medical College of New York, said: "Matzol, the new preparation, a combination of Matzoon and Cod-Liver Oil, I have found to be an excellent method of administering Cod-Liver Oil, as it both covers its taste and causes it to be well borne."

MATZOON and **MATZOL** can be obtained from principal druggists in United States and Canada, or direct from

The Medical and Surgical Sanitarium,

LOCATED AT

BATTLE CREEK, MICH.,

is the oldest and most extensive Sanitarium, conducted on strictly rational and scientific principles, in the United States. This institution offers the following special advantages:

An elevated and picturesque site.
Remarkable salubrious surroundings.
Water of extraordinary purity.
Baths of every description.
Electricity in every form.
Massage and Swedish Movements by trained manipulators
Pneumatic and Vacuum Treatment.
All sorts of Mechanical Appliances.
A fine Gymnasium, with a trained director.
Classified Dietaries.
Unequalled Ventilation.
Perfect Sewerage.
Artificial Climates and Medicated Atmospheres for cases of Lung Disease.
A splendid winter home for invalids.
Thoroughly Aseptic Surgical Wards and Operating Rooms.
Eight well-educated physicians in regular standing.

Nearly one hundred well-trained Nurses, Attendants, and Manipulators.
All the conveniences and comforts of a first-class hotel—Edison Electric Light, Steam Heating, first-class Elevator.
Incurable and offensive patients not received.

Not a "pleasure resort," but an excellent place for Chronic Invalids who need special conditions or treatment not obtainable at home.

A Training School for Nurses is connected with the Institution.

RATES REASONABLE. FOR CIRCULARS ADDRESS

J. H. KELLOGG, M.D., Supt. Sanitarium,

BATTLE CREEK, MICH.

WHEAT GLUTEN.

Gluten, the nitrogenous and flesh-forming element of wheat, barley and rye, is the most remarkable of all food elements, in that it alone is capable of sustaining life indefinitely, in the absence of all other elements.

Gluten is that adhesive substance of rubber-like consistence which is left after washing a portion of dough upon a sieve under a stream of water. It is by this or some similar process only, that gluten can be separated from the starch and other elements with which it is combined in foods. It is by this laborious process that our product is prepared from the finest quality of wheat. Large quantities of bogus Gluten are sold under various names, as was shown a few years since in a valuable article in the *Scientific American Supplement*. Some of the Gluten flours (so-called) contain less Gluten than good qualities of white flour. Our wheat Gluten is guaranteed to be just what it is represented.

As Gluten constitutes only about ten per cent of ordinary wheat flour, it will be seen it must necessarily be a somewhat expensive food ; and if we add to this the great labor of separating it, which must all be performed by hand, it will at once appear that the Gluten flour and other preparations offered at slightly more than the cost of ordinary flour, are fraudulent goods. Indeed, it may be stated on the best of authority that it is impossible to make a flour containing a larger amount of Gluten than that found in the flour of the entire wheat. There is no process of milling by which Gluten can be separated from starch. Our Gluten is prepared ready for use and requires no cooking. We believe it to be **the only Pure Gluten made in this country.**

We manufacture two grades of Gluten. No. 1, which is pure Gluten, and No. 2, from which a large part of the starch has been removed. It is only in the most extreme cases that the pure Gluten must be employed. In ordinary cases No. 2 is quite as good as a "health food" as the more expensive No. 1.

PRICES.

No. 1 Pure Gluten, (guaranteed to be free from Starch), **60 Cents per lb.**
No. 2 Gluten, - - - - - - **30 " "**

Send Address for Sample Package.

GRANOLA.

Granola is a prepared food, made of the choicest portions of the three principal grains—wheat, oats, and corn—which in the process of manufacture are subjected to a prolonged action of heat, by which the farinaceous elements of the grains are in a large part converted into dextrine; hence Granola may be said to be a partially digested food which is free from those deleterious substances which are always developed as the result of the action of animal digestive ferments.

Granola is the food *par excellence* for invalids, infants, travelers, and all who wish to obtain the largest possible supply of nourishment with the least labor on the part of the digestive organs.

This food has been carried by missionaries and other travelers to the interior of India, to Australia, to South Africa, and to the Islands of the Sea, and has demonstrated our claim for it that **Granola keeps in any climate.**

Granola is one of the most palatable of foods. Like bread, one never tires of it, and it is as acceptable to the capricious taste of the invalid as it is wholesome for his feeble or jaded digestive organs. This food requires no cooking. It is only necessary to moisten it with a little water or milk, and it may be eaten at once. Sold in bulk or in neat pound packages.

PRICES.

In one-pound packages, - - 12 cts. per pound.
In bulk, in lots of ten pounds or more, 10 cts. per pound.

Send Address for Sample.

SANITARIUM FOOD CO., Battle Creek, Michigan.

BROMIDIA

THE HYPNOTIC.

FORMULA.—Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—Same as Opium or Morphia.

DOSE.—(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

This cut represents the Atomizer with attachment for making continuous spray, and tongue depressor for post-nares spraying, which are easily detached when not required.

Sprays, tongue depressor, bottles, etc., can be quickly removed and replaced with others for powder or liquids. These apparatuses come singly, in desk racks, pocket cases, and combination boxes from $1.50 upward.

Physicians' Supply Mfg. Co.

140 & 142 Nassau St., N. Y.

New York Physicians' Collection Agency.

Collections made all over the World.

We make a specialty of collecting physicians' bills, and are able to give a service superior to that of general collection agencies, and at less expense. Also are employed by many physicians to do exactly the kind of work desired of a first-class private collector. We have a corps of trained collectors, and our aim is to obtain as large returns as possible for the physician from his bills, without annoyance and irritation to his desirable patrons; and at the same time we have every facility for collecting his doubtful or even desperate accounts.

TERMS ARE:—1st. On ordinary collections, 10 per cent. 2d. On very doubtful accounts, collectible on repeated demands or in small instalments, 20 per cent. 3d. On such bills as are desperate or practically given up by the creditor, 50 per cent. 4th. $2.00 is the minimum commission on any collection. 5th. Enforcing collection by legal process, and putting claims in judgment, always subject to special arrangement. Personal calls at physicians' office made [without charge], on request, and the per cent. agreed upon stated in receipts for bills. **No charge unless collection is made.**

Ellis' Nurses Bureau,

ESTABLISHED 1879.

1309 and 1311 BROADWAY,

TELEPHONE CALL, 1202 R. S. W. Cor. 34th St., N. Y.

Endorsed by the Medical Profession as Headquarters for

REGULAR TRAINED MALE AND FEMALE NURSES.

Male and Female Massage Operators.

WET NURSES.

WM. H. ELLIS, Prop. and Manager.

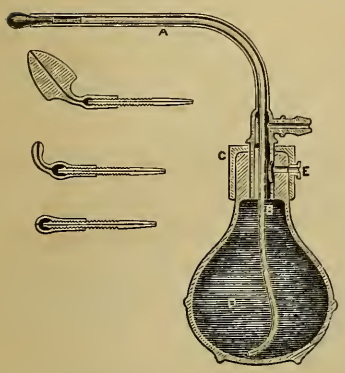
N. B.—Experienced men furnished to remove Invalids, City or Country.
N. B.—This Bureau is open Day and Night for the accommodation of the Public to procure a good trained Nurse free of office charge.

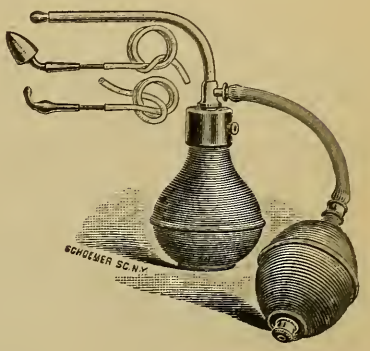
Telegraph, Telephone or Mail Orders Receive Prompt Attention.

NO CONNECTION WITH ANY OTHER AGENCY.

"STAR ∴ ATOMIZERS."

KNEUPER'S PATENT.





These Atomizers need only be seen to be appreciated.

The liquid container (**D**), made of elastic rubber, expands when the air bulb is pressed, and a continuous and very steady spray is thus produced, which can be promptly stopped by removing the finger from the "cut-off" (**E**). A fine or coarse spray can be produced without changing the tip in use.

The liquid comes in contact with rubber only, being conveyed to the tip by means of a soft-rubber tube (**B**) which passes through the metallic air tube (**A**). This soft tube can be readily removed and cleansed by stripping, without the use of a wire.

There are no plaster of Paris joints nor leather washers.

MANUFACTURED BY

GEORGE KNEUPER,

263 & 264 BROADWAY,

AND SOLD BY ALL FIRST-CLASS DRUGGISTS.

MEDICAL AUXILIARIES

Administered only under the intelligent guidance of the Medical Faculty.

SUCH AS

MASSAGE

—AND—

Rational Medico-Gymnastics

ALSO

PORTABLE

DRY HOT AIR, VAPOR AND OTHER MEDICINAL BATHS AT PATIENTS' HOMES.

New York School of Training for Massage,

NO. 721 SIXTH AVENUE,

FIRST ESTABLISHED IN 1862.

References [on application] of the very highest order to eminent physicians and lay people.

SKILLED

MALE AND FEMALE OPERATORS SUPPLIED TO ANY PART OF THE CITY OR COUNTRY ON THE SHORTEST NOTICE.

The purpose of these Schools is:

I.—To counteract, as far as possible, the ill effects produced upon the public minds by Massage and so-called Swedish Movement "cure" charlatans, whose incompetency and presumption has gone far to disgust the medical profession and to mislead others in regard to the real therapeutical advantages of the art.

II.—To put into this field of auxiliary usefulness a class of systematically trained male and female operators of good moral character and possessing all the NECESSARY requisites of health, disposition, physique, and training. A Certificate of qualification is granted to successful graduates by the Instructor and signed by not less than two medical men, constituting a Committee of Examiners.

III.—To offer advantages to ladies and gentlemen desirous of acquiring some knowledge of the art themselves for use in their own families, *or for having their maids or valets taught.*

THE MEDICAL DIRECTORY

OF THE

CITY OF NEW YORK.

PUBLISHED UNDER THE AUSPICES OF THE

MEDICAL SOCIETY OF THE COUNTY OF NEW YORK

NEW YORK:
PRESS OF STETTINER, LAMBERT & CO.
22, 24 & 26 READE STREET.
1890.

Entered according to Act of Congress, in the year 1890, by

DANIEL LEWIS,

in the office of the Librarian of Congress at Washington.

PREFACE.

The present volume is the fifth Medical Directory of the City of New York which has been published by the County Medical Society.

Its object is to supply to the profession and the public a complete list of the legally qualified physicians who are in practice in the city.

The credentials of all members of the Medical Society have been inspected and their validity verified by the *Comitia Minora* before election to membership.

All other physicians whose names are herewith published have registered in the office of the County Clerk, and are legally qualified to practise Medicine and Surgery.

The Editor is under especial obligations to the physicians for their co-operation in the task of collecting data for this volume.

249 Madison Ave., D. L.
June 1, 1890.

FAIRCHILD BROS. & FOSTER

OFFER

The PEPTOGENIC MILK POWDER,

AND

A special process for the preparation of an Artificial Food for Nursing Infants, which in taste, physical properties and chemical constitution approaches very closely to Woman's Milk.

We hold that the best artificial food for an infant must be that food which is most like mothers' milk.

Peptogenic Milk Powder yields, with cows' milk, the only infant food which does not contain substances foreign to all milk.

There are farinaceous foods and malt foods; baked flour and dried milk foods. But there is only one preparation offered by which cows' milk may be quantitatively and qualitatively adjusted to the standard of normal mothers' milk. Peptogenic Milk Powder is not a ready-made food. It does afford, with ordinary fresh cows' milk, the only approximate and adequate physiological substitute for the natural food of a nursing infant, and is therefore indisputably the best food for a bottle-fed infant.

Samples and Pamphlets Gratis.

---

82 & 84 Fulton Street, New York City.

"A DRINK FOR HEALTH."

[From the NEW YORK MEDICAL RECORD.]

"No one who, fatigued by overwork of body and mind, has ever experienced the reviving influence of hot milk, will willingly forego a resort to it because it is rendered less palatable by heating. The promptness with which its cordial influence is felt is indeed surprising. Some portion of it seems to be almost immediately assimilated, and many who now fancy they need alcoholic stimulants will find this simple draught an equivalent that is abundantly satisfying and far more enduring in its effects."

HOT PEPTONISED MILK.

Milk, when peptonised, contains but an insignificant amount of unassimilable material. When taken hot, it is absorbed with remarkable rapidity, and the beneficial influences, so justly attributed to hot milk by the *Record*, are experienced in a still greater degree from the ingestion of hot peptonised milk. We are able to state this from our personal experience and observation of its use, not only for invalids and delicate people, but for students and overworked people. For one who is obliged to study late at night, a glass of peptonised milk taken at such times has most beneficial and sustaining effects in every way. There is nothing better to work upon, nothing better to sustain one's energies, both of mind and body, under such circumstances, than hot peptonised milk. As a nourishment before retiring, when fatigued and overworked, it is the ideal food.

It can be prepared in one's room without much trouble or any special conveniences.

The peptonising powder should be mixed with the cold milk and heated gradually over a flame for a few minutes until it is as warm as can be agreeably borne by the mouth—not hotter than this—and sipped like a cup of tea or bouillon.

Samples of Peptonising Tubes, Practical Recipes, etc., sent gratis.

FAIRCHILD BROS. & FOSTER,

82 & 84 Fulton Street,

NEW YORK CITY.

MEDICAL SOCIETY OF THE COUNTY OF NEW YORK.

HONORARY MEMBERS (EX-OFFICIO).

[*Article* 5. The Governor of the State, the Mayor of the City of New York, the officers of the State Medical Society, non-residents of this County, and the Presidents of the several County Medical Societies, for the time being, shall be *ex-officio* Honorary Members.]

PHENACETINE-BAYER.

In therapeutic action it is like all the analgesic antithermics, it has a double action—it lowers temperature and soothes pain. The lowering of the temperature is noticeable in cases of pyrexia. In fevers, 7½ grains of Phenacetine lowers the temperature by 1.8° to 3.4° F., and the antithermic action following such a dose lasts four hours. In certain cases the apyrexial period is more prolonged even from the same dose. Phenacetine is thought by some to be superior to antipyrin and acetanilid in producing marked antithermic effects without toxic phenomena. But it is above all as an analgesic that Phenacetine outrivals its predecessor. While it is as powerful, it does not produce pain in the stomach or the scarlatina-form rash of the antipyrin, nor does it give rise to the cyanosis of the acetanilid. However prolonged may be its administration, no bad effect has ever been seen from its use. It has been used for the relief of every form of pain, even for the lightning pain of tabes, with the best results.—[From a paper presented to the Central Kentucky Medical Association, by Steele Bailey, M.D., New England Medical Monthly, March, 1890.]

Phenacetine-Bayer, prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in ounces and also in the form of our soluble pills and compressed tablets, containing 2, 4 *and* 5 *grains each. Either form may be obtained of any reputable apothecary.*

SULFONAL-BAYER.

Wm. H. Thomson, M.D., LL.D., in speaking of Sulfonal says:—"Sulfonal is a pure hypnotic, neither anæsthetic or depressing in character, and it does not affect the heart or circulation, and the sleep it produces is perfect. Being quite insoluble. it requires about three hours to become thoroughly dissolved in the stomach, and should be given about two hours before bedtime. As it is not affected by the digestive secretions, it may be given shortly after the evening meal.

"Sulfonal is of great value in the insomnia of the insane, and the dose should be repeated once during the night if the sleep is too short. **It is specially recommended in cases of nervous insomnia,** also in the sleeplessness of delirium tremens."—[From Notes, Materia Medica and Therapeutics. Lectures delivered by Prof. Wm. H. Thomson, M.D., LL.D. Edited by Wm. H. McEnroe, M.D.]

Sulfonal-Bayer, prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld. is supplied by us in ounces, and in the form of Tablets of 5, 10 *and* 15 *grains, put up in bottles of* 10 *and* 100 *tablets each.*

We also offer Sulfonal-Bayer in the form of our soluble pills containing 5 *grains each.*

W. H. SCHIEFFELIN & CO.,

170 & 172 WILLIAM STREET,

NEW YORK.

W. H. SCHIEFFELIN & CO.'S
SOLUBLE PILLS and GRANULES.

UNEQUALLED FOR

Purity in Composition, Solubility in Coating, Uniformity in Size, Perfection in Form and Finish.

These Pills are the result of many years' study of the subject, during which time each defect as it became manifest has been met and overcome.

We guarantee that their action will be as prompt and thorough as any uncoated pill that can be made, while they possess the advantages over pills not coated that they can be swallowed without taste, that the soluble condition of the mass is preserved by exclusion from atmospheric contact, and that substances like Proto-Salts of Iron, Phosphorus, etc., are effectually protected from oxidation.

The coating is an inert, soluble compound, dissolving upon the tongue in all cases almost instantly, entirely **tasteless**, perfectly **transparent** and **colorless**, thus disclosing to the eye the exact color and appearance of the pill-masses.

The coating is so thin that it scarcely increases the size of the pill, thus securing as small a bulk as the quantity of material will admit, while its application is so even that no inequalities exist.

Every pill is perfectly round ; each pill of the same variety corresponds with its neighbor exactly in size and weight.

The materials used in forming the various masses are **invariably** the **best** the market affords, weighed with scrupulous exactness, combined so thoroughly that the medicinal matter is perfectly diffused throughout the mass.

The Excipients employed are such as are best adapted to permanently secure a soft, soluble condition of the mass.

Our Pills can be procured from all the leading druggists in the country, or can be ordered direct from us. Samples furnished if desired. Price-List and Formula-Book mailed to any address.

Dealers and others will please observe that we do not supply our pills except in bottles of 100 and 500. It is obvious that this rule is necessary in order that they may be recognized as pills of our manufacture.

W. H. SCHIEFFELIN & CO.,

170 & 172 William St., NEW YORK.

THE ONLY NAPHTHA LAUNCH.

Over 500 now in successful operation. Some of the Profession who are using our launches:

EXALGINE.

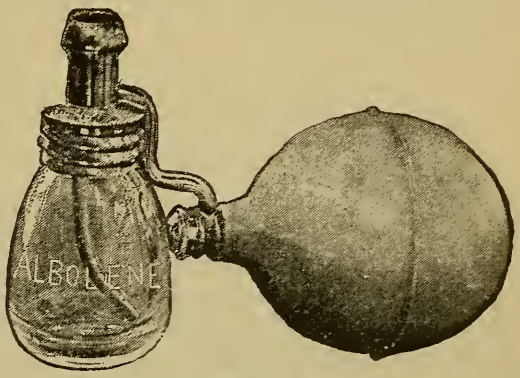
THE NEW ANALGESIC AND ANTI-NEURALGIC.

The most potent and safest of the derivatives of the aromatic series of synthetic compounds.

An abstract of Dr. Thomas R. Fraser's article sent free.

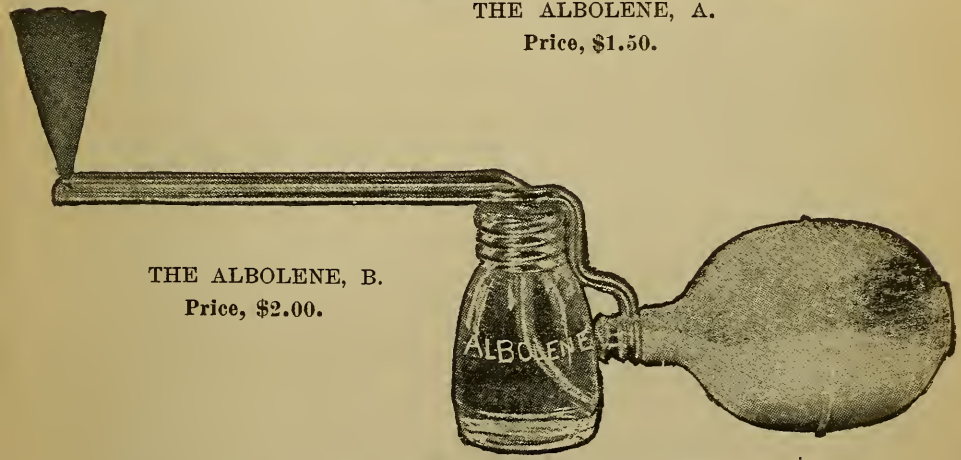
DIURETIN (Knoll).

Dr. Gram, of Copenhagen, announces a new diuretic under the above name. It is prepared from theobromin or dimethyl-xanthin (caffein being the tri-methyl-xanthin), and is stated to have a direct action on the kidneys, without other effects, such as action on the heart or nervous system. It is given in doses of one gramme, repeated to six grammes daily.



THE ALBOLENE, A.

Price, $1.50.



THE ALBOLENE, B.

CASWELL, MASSEY & CO.'S

Quinine Chocolates

(REGISTERED IN U. S. PATENT OFFICE.)

THE Chocolate used in the preparation of these tablets disguises the bitter taste of the Quinine without, in the least, impairing its therapeutic value. They are suitable in the entire range of conditions where Quinine is indicated, but are especially recommended in the sub-acute and chronic forms of malaria, characterized by headache, neuralgia, loss of appetite, and general *malaise*. They are quite palatable to children, and, for this reason, will be found invaluable in entero-colitis, and other spring and summer complaints ; or, as a restorative tonic in all cases of debility. The Chocolates are unequalled as an elegant and reliable prophylactic for persons residing in or passing through malaria districts. Each tablet contains one grain of tannate of quinine ; the dose, therefore, ranges from one or two daily, to a dozen or more, repeated as often as necessary, according to circumstances, or as directed by a physician.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

An Open Letter to the Medical Profession.

The Infant Food Problem Solved.

NEW YORK, *May* 1, 1890.

Drs. Louis Starr and W. M. Powell in *The Annual of the Universal Medical Sciences for* 1889 say: "*A perfect Infant Food is still a desideratum; such a food will probably be evolved in the mind of some manufacturer who understands the physiology of infantile digestion and the chemistry of milk. A substitute for human milk to approximate the latter closely should be made entirely from cow's milk, without the addition of any ingredient not derived from milk.*"

"*But not alone do we demand that these Milk Foods contain the equivalent of solids in human milk, and especially of the albuminoids derived from milk, but that the latter be gathered with the utmost care from properly fed animals, transported with the least possible jolting to the factory, maintained during its transit at a low temperature, then transferred to an apparatus for sterilization, and immediately after the latter has been accomplished reduced to the dry state, in order to prevent the formation of those organisms which Laeffer, Pasteur, and Lester have found to develop in fluid milk after boiling under an alkaline reaction. If such a preparation be put into air-tight and sterilized jars, all will have been accomplished that can be done to render the food sterile, and thus fulfil the chief indications in the prevention of the most serious gastro-intestinal derangements.*"

"*Such a food, too, would have the advantage of being easily and rapidly prepared by addition of sterilized water, affording an altogether sterilized food.*"

To these gentlemen who have so clearly defined a perfect *Infant Food*, and to the *Medical Profession* at large, we submit for examination and trial the perfected Milk Food known as LACTO-PREPARATA. We claim that LACTO-PREPARATA is an *ideal Infant Food*, and that it fulfils the above requirements in every particular, except the partial substitution of unstable milk-fat for cocoa-butter. This substitution was made by advice of Prof. Attfield, London, who made extensive tests of its food value and digestibility in the London Hospitals for Infants.

LACTO-PREPARATA is made from cow's milk evaporated in vacuo a few hours after it leaves the udder. In order to have the product correspond in composition with breast-milk, sufficient milk-sugar is added to bring up the carbohydrates and reduce the albuminoids to a proper proportion (17 per cent). The casein is partially predigested (30 per cent), and the remaining portion is rendered like human milk in character and digestibility. The ingredients are perfectly sterilized and placed in hermetically sealed cans; the powdering, bolting, and canning are done in an air-tight room, all air entering and leaving this room is forced by a blower through heavy layers of cotton LACTO-PREPARATA is adapted more especially to infants from birth to six months of age; *and by the addition of water alone represents almost perfectly human milk in taste, composition, and digestibility.*

Another product of our laboratory which has been before the profession for a number of years is CARNRICK'S SOLUBLE FOOD, which, as now prepared and perfected, contains 37½ per cent of the solid constituents of milk, 37½ per cent of wheat with the starch converted into dextrine and soluble starch, and 25 per cent additional milk-sugar. For infants over six months of age it is perfect in every respect; for infants younger than this, LACTO-PREPARATA is more suitable, although *Soluble Food* has also been used largely from birth with the most satisfactory results.

Samples will be sent prepaid, also pamphlet giving detailed description.

REED & CARNRICK

Natural Mineral Purgative Water

FROM THE SPRINGS OF

VILLACABRAS

Situated in the Province of Madrid, Spain.

SALE IN FRANCE AUTHORIZED BY THE GOVERNMENT.

Endorsed by the Academy of Medicine.

ANALYSIS, printed on the label of every bottle:

Sulfate de Soude, grammes	122.0500
" " Magnesie	0.9847
" " Chaux	2.0005
Chlorure de Sodium	0.9050
Silice, Alumine et Fer	0.1180
Par litre, grammes	126.0582

THE BEST NATURAL MINERAL PURGATIVE WATER KNOWN,

possessing over all others the following advantages:

1st.—It has neither repulsive smell nor bitter taste.
2d.—Only a small quantity is required to produce its effects.
3d.—It causes NO GRIPES NOR PAINS whatever.
4th.—It produces NO CONSTIPATION nor any other ill after-effects.
5th.—It can be taken either pure or mixed with milk, tea or broth.
6th.—It acts as a LAXATIVE OR PURGATIVE, according to the dose taken.
7th.—Its efficacy will not be impaired should the bottles remain uncorked.

Sold by the leading wholesale and retail druggists.

GOURD & TOURNADE, SOLE AGENTS FOR U. S. AND CANADA.

C. F. CHANDLER, Ph.D., No. 2751.
East 49th St., Cor. Fourth Ave.,
Chemist and Assayer.

NEW YORK, Feb. 10th, 1890.

GENTLEMEN:—I send you herewith the report of the "Villacabras" Water. It is one of the strongest and most powerful waters of this character that I have ever seen. I am confident that the medical profession will find it *very useful in cases* where this class of water is required.

Very sincerely yours, C. F. CHANDLER, Ph.D.

To Messrs. GOURD & TOURNADE,
25 South William St., N. Y. City.

CODE OF ETHICS OF THE MEDICAL SOCIETY OF THE STATE OF NEW YORK.

I. The Relations of Physicians to the Public.
II. Rules Governing Consultations.
III. The Relations of Physicians to Each Other.

I.—*The relations of physicians to the public.*

It is derogatory to the dignity and interests of the profession for physicians to resort to public advertisements, private cards, or hand-bills, inviting the attention of individuals affected with particular diseases publicly offering advice and medicine to the poor without charge, or promising radical cures; or to publish cases or operations in the daily prints, or to suffer such publications to be made; or through the medium of reporters or interviewers, or otherwise, to permit their opinions on medical and surgical questions to appear in the newspapers; to invite laymen to be present at operations; to boast of cures and remedies; to adduce certificates of skill and success, or to perform other similar acts.

It is equally derogatory to professional character, and opposed to the interests of the profession, for a physician to hold a patent for any surgical instrument or medicine, or to prescribe a secret nostrum, whether the invention or discovery or exclusive property of himself or of others.

It is also reprehensible for physicians to give certificates attesting the efficacy of patented medical or surgical appliances, or of patented, copyrighted, or secret medicines, or of proprietary drugs, medicines, wines, mineral waters, health resorts, etc.

II.—*Rules governing consultations.*

Members of the Medical Society of the State of New York, and of the medical societies in affiliation therewith, may meet in consultation legally qualified practitioners of medicine. Emergencies may occur in which all restrictions should, in the judgment of the practitioner, yield to the demands of humanity.

To promote the interests of the medical profession and of the sick, the following rules should be observed in conducting consultations:

The examination of the patient by the consulting physician should be made in the presence of the attending physician, and during such examination no discussion should take place, nor any remarks as to diagnosis or treatment be made. When the examination is completed, the physicians should retire to a room by themselves, and after a statement by the attending physician of the history of the case, and of his views of its diagnosis and treatment, each of the consulting physicians, beginning with the youngest, should deliver his opinion. If they arrive at an agreement, it will be the duty of the attending physician to announce the result to the patient, or to some responsible member of the family, and to carry out the plan of treatment agreed upon.

If in the consultation there is found to be an essential difference of opinion as to diagnosis or treatment, the case should be presented to the patient, or some responsible member of the family, as plainly and intelligently as possible, to make such choice, or pursue such course, as may be thought best.

In case of acute, dangerous, or obscure illness, the consulting physician should continue his visits at such intervals as may be deemed necessary by the patient or his friends, by him, or by the attending physician.

The utmost punctuality should be observed in the visits of physicians when they are to hold consultations, but as professional engagements may interfere or delay one of the parties, the physician who first arrives should wait for his associate a reasonable period, after which the consultation should be considered as postponed to a new appointment. If it be the attending physician who is present, he will of course see the patient and prescribe; but if it be the consulting physician, he should retire, except in an emergency, or when he has been called from a considerable distance, in which latter case he may examine the patient, and give his opinion in writing, and under seal, to be delivered to his associate.

III.—*The relations of physicians to each other.*

All practitioners of medicine, their wives, and their children, while under paternal care, are entitled to the gratuitous services of any one or more of the faculty residing near them whose assistance may be desired.

Gratuitous attendance cannot, however, be expected from physicians called from a distance, nor need it be deemed obligatory when opposed by both the circumstances and the preferences of the patient.

The affairs of life, the pursuit of health, and the various accidents and contingencies to which a medical man is peculiarly exposed, may require him temporarily to withdraw from his duties to his patients, and to request some of his professional brethren to officiate for him. Compliance with this request is an act of courtesy which should always be performed with the utmost consideration for the interests and character of the family physician, and when exercised for a short period, all the pecuniary obligations for such service should be awarded to him. But if a member of the profession neglect his business in quest of pleasure and amusement, he cannot be considered as entitled to the advantages of the frequent and long-continued exercise of this fraternal courtesy without awarding to the physician who officiates the fees arising from the discharge of his professional duties.

In obstetrical and important surgical cases, which give rise to unusual fatigue, anxiety, and responsibility, it is just that the fees accruing therefrom should be awarded to the physician who officiates.

Diversity of opinion and opposition of interest may, in the medical as in other professions, occasion controversy, and even contention. Whenever such cases unfortunately occur, and cannot be easily terminated, they should be referred to the arbitration of a sufficient number of physicians before appealing to a medical society or the law for settlement.

If medical controversies are brought before the public in newspapers or pamphlets, by contending medical writers, and give rise to or contain assertions or insinuations injurious to the personal character or professional qualifications of the parties, the effect is to lower in the estimation of the public, not only the parties directly involved, but also the medical profession as a whole. Such publications should therefore be brought to the notice of the County societies having jurisdiction, and discipline inflicted, as the case may seem to require.

ABSTRACT OF THE MEDICAL LAW OF 1887

§ 2. From and after the date of the taking effect of this act, no person not theretofore licensed or authorized to practise physic or surgery in this state shall be deemed so licensed or authorized except one of the three following classes:

First. All who shall have been graduated from an incorporated medical school or college in this state with the degree of doctor of medicine, after substantial compliance with all the requirements of the general laws and of the charter of said corporation regulating the term and amount of study, attendance and attainment requisite to obtain said degree; provided that no person shall receive the degree of doctor of medicine, or be licensed to practise physic or surgery in this state unless after the age of eighteen he shall have pursued the study of medical science for at least three years, in a chartered medical school or with some physician or surgeon duly authorized by law to practise physic or surgery; and shall have attended two complete courses of lectures in some legally incorporated medical school or college, in good standing at the time of such attendance, prior to the granting to him or her of a diploma or license; provided, further, that two courses of lectures, both of which shall be either begun or completed within the same calendar year, shall not satisfy the above requirement.

Second. All who have received said degree from the regents of the university of the state of New York, after substantial compliance with the legal requisites preliminary to its attainment, and after examination by a legally constituted board of medical examiners of this state.

Third. All who, having been graduated from incorporated medical schools or colleges without the state as doctors of medicine, or licensed to practice physic or surgery under the laws of those European countries in which said degree does not confer the right so to practise, shall procure their diplomas from said corporations or their licenses from such countries, to be indorsed by the faculty of an incorporated medical school or college within this state, or by the regents of the university on the recommendation of a legally constituted board of medical examiners of this state. Every such indorsement shall be in form of schedule A or of schedule B provided by the tenth section of this act. Every corporation or board so indorsing shall keep a record of their indorsements, and may require applicants to verify their statements under oath; any indorsement made with fraudulent intent, or gross carelessness or ignorance, shall be deemed a misdemeanor, and shall subject the indorser or indorsers, upon conviction thereof, to a fine of two hundred and fifty dollars.

§ 3. Every person who, at the time this act shall take effect, shall be practising lawfully physic or surgery in this state, under the authority and license conferred by the laws then in force, but who shall not be then duly registered in the county where he or she practises; and every person who shall thereafter become lawfully authorized or licensed to practise physic or surgery in this state shall register in a book to be kept in the clerk's office of the county in which such practise is carried on, his or her name, residence, place and date of birth, and authority for practising as aforesaid.

§ 4. A practising physician or surgeon, having registered lawful authority to practise physic or surgery in one county, who shall remove his practice or part thereof to or regularly engaged in practice or open an office in another county, shall exhibit in person to the clerk of such other county, or shall send to him through the mail by registered letter his certificate of registration, and if such certificate shows lawful authority to have been registered, said clerk thereupon shall register said applicant in said latter county, on receipt of a fee of twenty-five cents.

§ 6. No person shall be licensed or permitted to practise physic or surgery in this state who has been convicted of a felony by any court of competent jurisdiction; and if any person who is or hereafter shall be duly licensed to practise physic or surgery in this state shall be convicted of a felony, as aforesaid, his or her license to so practise, if any, shall be revoked by the fact of such conviction having been had. Any person who shall willfully swear falsely to any statement contained in any affidavit made pursuant to the provisions of this act shall be deemed guilty of a felony, and subject to conviction and punishment for perjury; any person who falsely and without authority shall counterfeit, make or alter any diploma, certificate or instrument constituting a license to practise physic or surgery within this state, or any certificate or indorsement given in pursuance of this act, shall be deemed guilty of a felony, and be subject to conviction and punishment for forgery in the second degree; any person who shall practise physic or surgery under a false or assumed name, or who shall falsely personate another practitioner of a like or different name, shall be deemed guilty of a felony, and shall be subject to conviction and punishment for false personation; and any person guilty of violating any of the other provisions of this act, not otherwise specifically punished herein, or who shall buy, sell or fraudulently obtain any medical diploma, license, record or registration, or who shall aid or abet such buying, selling or fraudulently obtaining thereof, or who shall practise physic or surgery in this state under cover of a diploma or license that shall have been illegally obtained, or that shall have been signed or issued unlawfully or under fraudulent representations, or mistake of fact in material regard or who, after conviction of a felony, as aforesaid, shall attempt to practise physic or surgery in this state, and any person who shall assume the title of doctor of medicine, or append the letters "M.D." to his or her name, without having received the degree of doctor of medicine from some school, college or board empowered by law to confer said degree or title, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than two hundred and fifty dollars, or imprisonment for six months for the first offence. and upon conviction of a subsequent offence, by a fine of not less than five hundred dollars or imprisonment for not less than one year, or by both fine and imprisonment. Any person who, not being then lawfully authorized to practise physic or surgery in this state and so registered according to law, shall practise on or after the first day of October, eighteen hundred and eighty-seven, physic or surgery within this state without the license and registration provided for in this act, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than fifty dollars for the first offense, and for each subsequent offense by a fine of not less than one hundred dollars, or by imprisonment for not less than one hundred days, or by both fine and imprisonment.

§ 8. Nothing in this act shall be construed to punish commissioned medical officers serving in the army or navy of the United States, or in the United States marine hospital service, while so commissioned, or any one while actually serving as a member of the resident medical staff of any legally incorporated hospital, or any legally qualified and registered dentist exclusively engaged in practising the art of dentistry, or interfere with manufacturers of artificial eyes, limbs or orthopedical instruments or trusses of any kind from fitting such instruments on persons in need thereof; or any lawfully qualified physicians and surgeons residing in other states or countries meeting registered physicians and surgeons of this state in consultation, or any physician or surgeon residing on the border of a neighboring state, and duly authorized under the laws thereof to practise physic or surgery therein, whose practice extends into the limits of this state; providing that such practitioner shall not open an office or appoint a place to meet patients or receive calls within the limits of the state of New York; or physicians duly registered in one county of this state called to attend isolated cases in another county, but not residing or habitually practising therein.

AN ACT

To amend chapter six hundred and forty-seven of the laws of eighteen hundred and eighty-seven, entitled "An Act to regulate the licensing and registration of physicians and surgeons and to codify the medical laws of the State of New York."

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section two of chapter six hundred and forty-seven of the laws of eighteen hundred and eighty-seven is hereby amended so as to read as follows:

§ 2. From and after the date of the taking effect of this act, no person not theretofore licensed or authorized to practise physic or surgery in this State shall be deemed so licensed or authorized except one of the three following classes:

First. All who shall have been graduated from an incorporated medical school or college in this State with the degree of doctor of medicine, after substantial compliance with all the requirements of the general laws and of the charter of said corporation regulating the term and amount of study, attendance and attainment requisite to obtain said degree; provided that no person shall receive the degree of doctor of medicine, or be licensed to practise physic or surgery in this State, unless, after the age of eighteen, he shall have pursued the study of medical science for at least three years in a chartered medical school, or with some physician and surgeon duly authorized by law to practise physic or surgery, and shall have attended two complete courses of lectures in some legally incorporated medical school or college in good standing at the time of such attendance, prior to the granting to him or her a diploma or license. Provided, further, that two courses of medical lectures, both of which shall be either begun or completed within the same calendar year, shall not satisfy the above requirement.

Second. All who have received said degree from the regents of the University of the State of New York after substantial compliance with the legal requisites preliminary to its attainment, and after examination by a legally constituted board of medical examiners of this State.

Third. All who, having been graduated from incorporated medical schools or colleges without the State as doctors of medicine, or licensed to practise physic or surgery under the laws of those European countries in which said degree does not confer the right so to practise, shall procure their diplomas from said corporations, or their licenses from such countries, to be indorsed by the regents of the University on the recommendation of a legally constituted board of medical examiners of this State. Every such indorsement shall be in form of Schedule A or of Schedule B, provided by the tenth section of this act. The regents shall keep a record of such indorsements, and may require applicants to verify their statements under oath; any indorsement made with fraudulent intent, or gross carelessness or ignorance, shall be deemed a misdemeanor, and shall subject the indorser or indorsers, upon conviction thereof, to a fine of two hundred and fifty dollars; provided, however, that no such indorsement as is above specified shall be made until the applicant thereof shall file with the person, officer, or body above named as authorized to make such indorsement, a certificate, signed by the secretary of the University of the State of New York, showing that such applicant has received the degree of bachelor or master of arts, of bachelor or master of science, or of bachelor or doctor of philosophy, from a college or university duly authorized to confer the same; or that he has passed an examination conducted under the authority and in accordance with the rules of the regents of the University of the State of New York, in arithmetic, grammar, geography, spelling, American history, English composition, and elementary physics; or that he possesses qualifications which the regents have considered and accepted as fully equivalent to the above-named qualifications; as such degrees and certificate are more particularly defined in an act of the legislature of the State of New York, by chapter 468 of the laws of 1889, entitled "An act to provide for the preliminary education of medical students," and as the same may be hereafter amended.

CHAPTER 468 OF THE LAWS OF 1889

AS PROPOSED TO BE AMENDED BY ASSEMBLY BILL NO. 960.

CHAPTER 468.

To provide for the preliminary education of medical students.

SECTION 1. Before the regents of the University of the State of New York or the trustees of any medical school or college within this State shall confer the degree of doctor of medicine on any person, they shall require him to file with the secretary or recording officer of their university or college a certificate *signed by the secretary of the University of the State of New York*, showing *either* that *he possesses the degree of bachelor or master of arts, of bachelor or master of science, or of bachelor or doctor of philosophy received by him from a college or university duly authorized to confer the same, or that, during or* prior to *the first year of his medical study within this State*, he passed an examination conducted under the authority and in accordance with the rules of the regents of the University of the State of New York, or by the faculty of a medical school or college entitled to confer the degree of doctor of medicine, in accordance with the standard and rules of said regents in arithmetic, grammar, geography, orthography, American history, English composition, and the elements of natural philosophy, or in their substantial equivalents approved by said regents; *or that he possessed qualifications which the regents considered and accepted as fully equivalent to the above-named qualifications.*

(As proposed to be amended by Assembly Bill No. 961.)

§ 2. This act shall not apply to persons who have already (June 13, 1889) entered upon the prescribed three years' study of medicine, nor shall it alter the course or the courses of medical instruction required to be pursued in the medical colleges of this State by existing statutes.

AN ACT

To establish boards of medical examiners of the State of New York for the examination and licensing of practitioners of medicine and surgery; to further regulate the practice of medicine and surgery.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. From and after the first day of September, eighteen hundred and ninety-one, there shall be and continue to be three separate boards of medical examiners for the State of New York, one representing the Medical Society of the State of New York, one representing the Homœopathic Medical Society of the State of New York, and one representing the Eclectic Medical Society of the State of New York. Each board shall consist of seven members, and each of said members shall serve for a term of three years from the first day of September next after his appointment, with the exception of those first appointed, who shall serve as follow: Two of each board for one year, two of each board for two years, and three of each board for three years from the first day of September, 1891. The power of appointment shall vest in the Board of Regents of the University of the State of New York, which shall appoint the members of said boards of examiners respectively from lists of nominees to be submitted by each of the said three medical societies, the number of nominees by each of said societies to equal or exceed twice the number of appointments so to be made from each of said societies. Each of said nominees shall be nominated by a majority vote at the annual meetings of the society with which said nominee may be in affiliation, and the names of persons so nominated shall be transmitted without unne

cessary delay to the said board of regents, under the seal of and signed by the president and secretary of the society so nominating. From these lists of nominees, respectively, said board of regents, at the following annual or regular meeting, shall appoint three separate boards of examiners, each board to be composed exclusively of members of the same medical society. In case of failure of any or all of said medical societies to submit nominees as aforesaid, said board of regents shall appoint members in good standing of the corresponding society or societies entitled to nominate, without other restriction. Each one of said appointees, prior to appointment, shall furnish evidence of having received the degree of doctor of medicine in course from some legally incorporated medical college authorized to confer the same, and shall certify to said board of regents to having practised medicine or surgery under the laws of this State for a period of not less than five years immediately prior to such appointment. The said board of regents shall fill vacancies by death or otherwise, for unexpired terms of said examiners, from the respective lists of nominees submitted by the said medical societies; and may remove any member of either of said boards for continued neglect of the duties required by this act, or, on recommendation of the medical society of which said members may be in affiliation, for unprofessional or dishonorable conduct.

The board of regents shall in their first appointments designate the number of years for which each appointee shall serve. The appointments of successors to those members whose terms of office will expire on the first day of September of each year shall be made by the regents during or before the month of July of such year, upon the same conditions and requirements as hereinbefore specified with reference to the appointment of three separate examining boards, each to be composed exclusively of members of the same medical school and society as are hereinbefore provided.

§ 2. Said boards shall be known by the name and style of Boards of Medical Examiners of the State of New York. Every person who shall be appointed to serve on either of said boards shall receive a certificate of appointment from the regents of the university, and within thirty days after receiving such certificate shall take, subscribe, and file in the office of the Secretary of State the oath prescribed by the twelfth article of the constitution of this State. Each of said boards shall be authorized to take testimony concerning all matters within its jurisdiction, and the presiding officer for the time being of either of said boards, or of any of the committees thereof, may issue subpœnas and administer oaths to witnesses. Each of said boards of examiners shall make and adopt all necessary rules, regulations, and by-laws not inconsistent with the constitution and laws of this State or of the United States, whereby to perform the duties and transact the business required under the provisions of this act, said rules, regulations, and by-laws to be subject to the approval of said regents.

§ 3. From the income provided by this act the regents may pay, not to exceed said income, all proper expenses incurred by its provisions; and if any surplus above said expenses shall remain at the end of any year, it shall be apportioned by said regents among said examiners pro rata, according to the number of candidates examined by each.

§ 4. The first meeting of each of the examining boards respectively shall be held pursuant to a call issued by the secretary of the board of regents, within two months from the first day of September, 1891, suitable notice in the usual form being given to each of the members thereof, specifying the time and place of meeting. At the first meeting of each of the boards respectively, an organization shall be effected by the election, from their own membership, of a president and secretary. For the purpose of examining applicants for license, each of said boards of medical examiners shall hold one or more stated or special meetings in each year, pursuant to a call of the board of regents, due notice of which shall be made public, at such times and places as may be determined by the board of regents; but each examination shall be under the supervision of an examiner appointed by the board of regents, and who shall not be a member of any board of medical examiners. At said stated or special meetings a majority of the members of a board shall constitute a quorum thereof, but the examination may be conducted by a committee of one or more members of the board of examiners duly authorized by such board.

§ 5. The several boards of medical examiners shall submit to the board of regents lists of examination questions for thorough examinations in anatomy, physiology, and hygiene, chemistry, surgery, obstetrics, pathology and diagnosis, and therapeutics, including practice and materia medica; from the lists of questions so submitted the board of regents shall select the questions for each examination, and present the same to the candidates at each examination by an examiner appointed therefor by the board of regents, and such questions shall be so selected as to require the same standard of excellence from all candidates, except that in the department of therapeutics, practice and materia medica the questions shall be in harmony with the tenets of the school selected by the candidate.

§ 6. Said examinations shall be conducted in writing in accordance with the rules and regulations prescribed by the board of regents, and shall embrace the subjects named in section five of this act. At the close of said examination the examiner appointed by the board of regents having supervision thereof, shall forthwith deliver to the boards of medical examiners having charge of such examination, or to their duly authorized committee, the questions submitted to and the answers of each applicant, and such board of medical examiners, without unnecessary delay, shall transmit to the regents of the university an official report, signed by the president, secretary, and each acting member of said board of examiners, stating the examination average of each candidate in each branch, the general average, and the result of the examination, whether successful or unsuccessful Said report shall embrace all the examination papers, questions, and answers thereto. All the examination papers so returned shall be kept for reference and inspection among the public records of the university.

§ 7. On receiving from either of said boards of medical examiners an official report of the examination of any applicant for license, the said regents shall issue to every applicant who shall have been returned as having successfully passed said examination, and who shall in their judgment be duly qualified therefor, a license to practise medicine and surgery in the State of New York. The board of regents shall require the same standard of qualifications from all candidates, except in the department of therapeutics, practice and materia medica, in which the standard shall be determined by each of the boards of medical examiners respectively. Every license to practise medicine or surgery, issued pursuant to the provisions of this act, shall be subscribed by the chancellor and secretary of the University of the State of New York, by each medical examiner who reported the licentiate as having successfully passed said examinations. and also by those of the regents who examined and approved the credentials of said licentiate upon the application for examination. It shall also have affixed to it, by the person authorized to affix the same, the seal of said university. Every such license shall be substantially in the following form:

"The regents of the university of the State of New York. To all whom it may concern, greeting:

"Be it known that A B, on the .. ..day of.... .A.D.....having offered to us satisfactory proof that..... . was more than twenty-one years of age, and had received a proper preliminary education; that ..... had attended three full courses of medical instruction, the last course at....., in , in the years of... , and had received from the. . ....of ..... the degree of doctor of medicine; we thereupon gave a written order for the examination of said A B before one of the boards of medical examiners of the State of New York; that the said A B was fully examined before said board and found proficient by the members of the board whose signatures are hereto attached. We, therefore, have granted to said A B this our license to practise medicine and surgery in the State of New York as a physician and surgeon, and have caused the names of the chancellor and secretary of our board of regents and said examiners to be subscribed, and the seal of the university to be affixed hereto, and have also caused this license to be recorded in book.....of medical licenses, on page....." Before said license shall be issued, it shall be recorded in a book to be kept in the office of said regents, and the number of the book and the page therein containing said recorded copy shall be noted in the body of the license. Said records shall be open to public inspection,

under proper restrictions as to their safe-keeping, and in all legal proceedings shall have the same weight as evidence that is given to the record of the conveyances of land.

§ 8. From and after the first day of September, eighteen hundred and ninety-one, any person not theretofore lawfully authorized to practise medicine and surgery in this State, and desiring to enter upon such practice, may deliver to the regents of the university, upon the payment of twenty-five dollars into the treasury of the University of the State of New York, a written application for license, together with satisfactory proof that the applicant is more than twenty-one years of age, is of good moral character, has obtained a competent common school education, and has either received a diploma conferring the degree of doctor of medicine from some legal ly incorporated medical college in the United States, or a diploma or license conferring the full right to practise all the branches of medicine and surgery in some foreign country, and has also studied medicine three years, including three courses of lectures in different years, in some legally incorporated medical college or colleges prior to the granting of said diploma or foreign license; provided that two courses of medical lectures, both of which shall be either begun or completed within the same calendar year, shall not satisfy the above requirement. Such proof shall be made, if required, upon affidavit. Upon the making of said payment and proof, the board of regents, if satisfied with the same, shall direct the secretary thereof to issue to said applicant an order for examination by any one of said boards of medical examiners which said applicant may elect. In case of failure at any such examination, the candidate, after the expiration of six months, and within one year, shall have the privilege of a second examination by the same board to which application was first made, without the payment of an additional fee. And it is further provided that applicants examined and licensed by State examining boards of other States, on payment of ten dollars to the university of this State, and on filing in the office of said regents a copy of said license, certified by the affidavit of the president and secretary of such board, showing also that the standard of acquirements adopted by said State examining board is substantially the same as is provided by sections five and six of this act, shall, without further examination, receive from said regents a license conferring on the holder thereof all the rights and privileges provided by sections eight and nine of this act.

§ 9. On and after the first day of September, eighteen hundred and ninety-one, no person not theretofore a legally authorized practitioner of medicine and surgery, under the laws of this State then in force, shall practise medicine or surgery, in this State, unless that person shall have received from the regents of the university, after examination and approval as herein provided, a license to practise as a physician and surgeon, and unless said license shall have been registered as required under the provisions of chapter six hundred and forty-seven of the laws of eighteen hundred and eighty-seven, or unless such person shall hold a license from a State examining and licensing board of another State, and shall have been licensed by the board of regents as provided by this act.

§ 10. Nothing in this act shall be construed to interfere with or punish commissioned medical officers serving in the army or navy of the United States, or in the United States marine hospital service, while so commissioned, or any one while actually serving as a member of the resident medical staff of any legally incorporated hospital, or any legally qualified and registered dentist, exclusively engaged in practising the art of dentistry, or interfere with manufacturers of artificial eyes, limbs, or orthopædical instruments, or trusses of any kind, from fitting such instruments on persons in need thereof; or any lawfully qualified physicians and surgeons residing in the border of a neighboring State, and duly authorized under the laws thereof to practise medicine or surgery therein, whose practice extends into the limits of this State, provided that such practitioners shall not open an office or appoint a place to meet patients or receive calls within the limits of the State of New York; or physicians duly registered in one county of this State, called to attend isolated cases in another county, but not residing or habitually practising therein.

§ 11. This act shall take effect immediately.

CONTAGIOUS DISEASES.

SECTION 98. 1. Whenever it becomes known to the Principal or teacher in charge of a school that a contagious disease prevails in a house, other than a tenement, in which a child or children attending the school lives or live, such child or children shall be immediately excluded from the school, and shall not be readmitted except as elsewhere in this section provided.

2. Whenever the Principal or teacher in charge ascertains that a contagious disease or other than small-pox or typhus fever exists in a tenement house, but on one floor only, a child or children living on another floor of the same house need not for this reason be excluded, but children thus situated must be questioned daily about their health and that of their respective families, and must be sent home at the first symptom of illness, or the first intelligence of contagion in their families.

3. But if a contagious disease of any description exists on more than one floor of a tenement house, or if the disease existing on only one floor be small-pox or typhus fever, all children living in the house must be promptly excluded from school.

4. Children excluded pursuant to the above rules shall not be again permitted to attend school—

In case of scarlet fever, until three weeks after the *beginning* of the las case, on the floor or in the house, according to whether the exclusion has applied to a floor, or an entire house, under the above rules.

In case of measles, until two weeks after the *beginning* of the last case, on the floor or in the house, according to the extent of the exclusion.

In case of diphtheria, until one week after the *termination* of the last case, on the floor or in the house, according to the exclusion.

In case of scarlet fever, measles, or diphtheria, until a certificate of the Board of Health is produced, stating that the apartments, bedding, and clothing affected by the contagion have been properly disinfected.

If the disease be small-pox or typhus fever, children who have been in such a case excluded must not resume their attendance without producing a certificate from the Board of Health, stating that it is safe for them to do so.

5. New scholars applying for admission, and living in houses or on floors where a contagious disease prevails, must be admitted or excluded in compliance with the above rules.

6. Principals and Teachers in charge are required to communicate to the Clerk of the Board of Education any information received by them relevant to this subject not known to be in his possession.

7. Hereafter, all children attending the schools under the control of this Board, and residing in orphan asylums, infirmaries, homes, nurseries, or other institutions, shall regularly furnish to their respective Principals weekly certificates signed by a duly licensed and competent physician of good standing, to the effect that during the week preceding the date of such certificate there were no contagious or infectious diseases of any kind in such asylum, infirmary, home, nursery, or institution, and no Principal shall allow the attendance at school of any such children unless the certificate herein required is furnished as aforesaid; and all such certificates shall be preserved by said Principals for one year.

8. If the certificate should show that there was any such disease in such orphan asylum, infirmary, home, nursery, or institution, or if any Principal should, from any other source, ascertain the existence of any such disease in any such orphan asylum, infirmary, home, nursery, or institution, such Principal shall forthwith dismiss from attendance all pupils residing in such orphan asylum, infirmary, home, nursery, or institution, and such pupils shall not be allowed to attend until authorized by the Committee on By-Laws, Elections and Qualifications of the Board of Education.

POSTAL RATES.

United States, Canada, and Mexico.

On Letters (and on all matter sealed or closed against inspection), two cents for each ounce or fraction thereof; on *Newspapers* and Magazines, known as "Second Class Mail Matter," one cent for each four ounces; on *Circulars*, Books, Pamphlets, Business Cards, Hand Bills, Engravings, Chromos, and other similar printed matter, one cent for each two ounces or fraction thereof; on *Merchandise*, one cent per ounce or fraction thereof, except Seeds, Cuttings, Roots, Plants, Bulbs and Coins, the postage on which is one cent for each two ounces or fraction thereof.

Great Britain, Ireland, Germany, France, Italy, Spain, Austria, Russia and all other Countries belonging to the Universal Postal Union.

On Letters, five cents for each half ounce; on *Newspapers* and o her printed matter and on samples of merchandise (nothing of salable value allowed), one cent for each two ounces or fraction thereof. *International Postal Cards* can be sent to all European and most other foreign countries. To Canada and Mexico, domestic rates apply.

Do not send money by mail except in Registered Letters or by Money Orders.

KRESS'

Acidulated Liquid Pepsine.

Practitioners who have used and prescribed this Liquid Pepsine, have always been pleased with the prompt action of this preparation.

Being made *directly from the mucus of the stomach* without heat or evaporation, it presents

PURE PEPSINE IN ITS ENTIRE ACTIVITY,

in combination with its natural solvent (Hydrochloric Acid).

By an improved process we can now furnish an odorless and colorless Liquid Pepsine that will keep and not deteriorate with age.

SAMPLES ON APPLICATION.

KRESS & BEHRENS,

Corner 52d Street, **1670 Broadway.**

Please specify: *Liquor Pepsini Acidulatus Kress.*

FALKIRK

JAMES FRANCIS FERGUSON, M.D.

DAVID H. SPRAGUE, M.D.

Situated on the Highlands of the Hudson, near Central Valley, Orange County, New York, is now open for the reception of cases of nervous and mental diseases, the alcohol and opium habit.

Falkirk is 800 feet above sea level; the grounds cover over 200 acres, are well shaded, and command a magnificent view of the valley. Connected with it is a lake of pure water covering over 50 acres. The buildings are all new and constructed on the cottage system; heated with steam, lighted by gas, and supplied with pure water from mountain springs. All the living rooms face the southwest and have the conveniences of modern homes.

Dr. Ferguson and Dr. Sprague may be consulted at their offices, 168 Lexington Avenue, New York City, Tuesdays and Fridays between half-past eleven and half-past twelve, and by appointment, or may be addressed at Central Valley, Orange County, New York.

SCHERING'S
CHLORALAMID

The New Hypnotic.

CHLORALAMID possesses undoubted advantages over other similar preparations, and the many trials made and reported since its comparatively recent introduction have been unanimously favorable. A 32-page descriptive pamphlet to any physician on request; a 5 dose sample sent by mail, prepaid, on receipt of 15 cents in stamps.

DOSE: Thirty to forty-five grains. It is not expensive, and much cheaper than other similar new hypnotics.

GRIFFITH & CO.'S

COMPOUND MIXTURE OF

GUAIAC, STILLINGIA, ETC.

For Acute and Chronic Rheumatism, Gout, Lumbago, Neuralgia, and Kindred Complaints.

TO PHYSICIANS.—Gentlemen: We would respectfully draw your attention to our *COMPOUND MIXTURE OF GUAIAC, STILLINGIA, Etc.*

When ordering this preparation, in order to avoid delay or misunderstanding, physicians will please specify "GRIFFITH & CO.'S," or physicians in the city can send their patients direct to our pharmacies, at No. 67 Third Ave., cor. 11th Street, or 2241 Third Avenue, cor. 122d Street, New York, where, at any time, further information will be cheerfully furnished. Out of town physicians can order through their druggists or direct from us.

We have hundreds of testimonials from prominent physicians who have prescribed and personally used this mixture It is manufactured for *PHYSICIANS' PRESCRIPTIONS* only. Always Specify GRIFFITH & Co.'s. If you have an obstinate case of Rheumatism under treatment, inclose one dollar and receive, by express, a regular size bottle, or we will send, upon request, a sample bottle, providing you will pay express charges. Wholesale Price List—8-ounce size, $10.50 per dozen: 16-ounce size, $20.00 per dozen. In lots of one dozen and upwards, we prepay express charges to any point east of the Rocky Mountains.

P.S.—The advertising of this article is confined strictly to Medical Journals.

Very respectfully,

GRIFFITH & CO., Chemists and Pharmacists,

67 THIRD AVENUE, COR. 11TH STREET,

ALFRED UNIVERSITY

ALFRED CENTRE N.Y.

REV. J. ALLEN, D.D., LL.D., PH.D.,
President.

Alfred University is an Institution of fifty years' standing, designed for both ladies and gentlemen, granting them equal privileges and furnishing them equal facilities.

The departments are completely organized, and instruction in all courses is full and thorough.

1. Preparatory Department.

2. Department of the Liberal Arts, Philosophy and Didactics, affording complete instruction in the Classical, Philosophical, Scientific, Literary, and Normal Courses.

3. Department of Penmanship and Book-keeping.

4. Department of Music, with full courses in Vocal and Instrumental Music, Composition, etc.

5. Department of the Fine Arts, embracing Drawing, Sketching, Crayoning, Painting, Clay Modelling and China Decorations.

6. Department of Industrial Mechanics, including Mechanical, Architectural and Machine Drawing.

7. Department of Theology.

The entire annual expenses, including room, board, and tuition, need not exceed $200.00.

CALENDAR.

FALL TERM begins Wednesday, August 27th, 1890.

References in New York City.

IRA A. PLACE, ESQ., Law Department, Grand Central Depot.
Dr. P. J. B. WAIT, Institution for the Blind, 34th Street.

MATERIALS
For Antiseptic Dressings and Incidental Supplies,

AND CHEMICALS.

Plain Absorbent and Medicated Cottons, Jute Wools, Oakum, etc.

PURIFIED HOSPITAL AND ABSORBENT GAUZE,

FREE OF ORGANIC IMPURITIES.

Bichloride Hospital and Absorbent Gauze.

Warranted, if protected from direct sunlight, not to decompose; thoroughly antiseptic; with the bichloride easily soluble in liquids or effusions. The slightest decomposition manifests simultaneously by a bleaching of the reddish color.

BORATED COTTON AND GAUZES

Contain the boric acid in solution with glycerin and apparently as a boro-glyceride. The extensive use of boric acid for preserving, and the more recent introduction of boro-glycerite for preserving subjects and parts, should warrant its antiseptic property. The valuable cleansing and detergent properties of *these* boric acid dressings deserve attention. ***Absolutely permanent.***

IODOFORM GAUZES, 7½, 10, 33 and 50%.

In the criticism of ***Iodoform*** it seems to have been overlooked that no antiseptic can act except in solution, and that culture jelly rather imbeds iodoform. It sterilizes blood in the incubator at 98 easier and better than without. Its effects from absorption are well known.

Sticky Iodoform Gauze to order only.

All decompose from light.

Combined Dressings of Borated Cotton with Bichloride Gauze for Wounds, with Iodoform Gauze 7½ or 33 per cent for Indolent Ulcers, insure the advantages of Dry Dressings without Protectives.

BORATED WOOL WADDING,

FOR NOT CLOGGING TAMPONS.

RAW CATGUT.

Antiseptic Catgut and Bone Drains of superior resistance.

LAMINARIA TENTS, WARRANTED ASEPTIC.

I. R. IODOFORM DUSTERS, IRRIGATORS, ETC.

BORO-GLYCERIDE and BORO-GLYCERITE.

SEMI-SOLID. LIQUID.

Dr. Wylie's Boro-Glycerite with Alum-acet.

Reef and flat sponges, raw and aseptic.

Syrup of Hypophosphites with Hæmaglobin.

Malt Extract, free of Glucose; highly digestive and nutrient.

Aseptin for Skin Diseases, especially of infectious nature. For sale at all prominent drug stores, or 1300 Broadway, Room A.

C. AM ENDE, P. O. Address, Weehawken P. O., N. J.

ESTABLISHED 1860.

SHARP & DOHME,

BALTIMORE, MD.

MANUFACTURERS OF

STANDARD MEDICINAL FLUID, SOLID, AND POWDERED EXTRACTS, GRANULAR EFFERVESCENT SALTS, TABLET TRITURATES, ELIXIRS, SYRUPS, WINES, FINE CHEMICALS, COMPRESSED TABLETS AND LOZENGES.

Soluble Gelatin Coated and Sugar Coated Pills and Granules.

(Comprising all the officinal and other well-known formulæ.)

PIL: LAPACTICAE (S. & D.'S)

(Composition: Aloin ¼ grain, Ext. Bellad. ⅛ grain, Strychnine 1-60 grain. Ipecac 1-16 grain), introduced by us, an elegant and most efficient combination for the relief of Habitual Constipation, Atonic Dyspepsia, Biliary Engorgement, and many Gastric Disorders.

☞ ***Sample Furnished upon Application.***

We call special attention to our

Soluble Hypodermic Tablets.

These tablets are QUICKLY and PERFECTLY SOLUBLE in COLD or WARM water.

They combine ACCURACY OF DOSE with PERFECT PRESERVATION of the ACTIVE INGREDIENT.

The BASE with which the latter is combined is PERFECTLY HARMLESS AND UNOBJECTIONABLE.

THEY WILL CAUSE NO ABSCESSES.

They will not become insoluble by age.

They may also be administered by the mouth.

Catalogues giving Composition, Doses, etc., of all our preparations mailed to physicians on application.

IMPROVED OINTMENTS

IN COLLAPSIBLE TUBES.

The pronounced success of our efforts to promote rapid absorption of drugs, incorporated with an absorbable base—as evidenced in **Canthos**—led to investigating the Ointments of the Pharmacopœia with a view to increasing their use. After two years' experimenting, carefully testing the new product through our leading Dermatologists, we now place upon the market improved Ointments, which we call **"Gelatole,"** to distinguish them from all others. They are put up in neat collapsible tubes. Their advantages are :

1st. The base is more absorbable than lard, is soluble in water, is antiseptic and non-irritating.

2d. The base is a solvent for nearly all drugs.

3d. When partly dry or rubbed thin, a film or protective coating is formed, protecting the skin or wound.

Gelatole Ointments have been warmly indorsed by our leading Dermatologists, and are likely to take the place of the old system. The list of Gelatole Ointments comprises nearly all the Pharmacopœia formulas.

NOTE.—All of our products are guaranteed in every manner. When ordering, physicians are asked to specify our make of goods, if they desire them.

JOHNSON & JOHNSON, New York.

HOFF'S MALT.

"TARRANT'S."

PHYSICIANS should write as above when wishing to prescribe the *Original* and *Genuine Imported* Hoff's Malt Extract, for which we have been sole agents since 1869, and which can only be had in this market in bottles as per cut, and *is never* sold in the United States in any other style of package.

The Standard Nutritive Tonic

FOR

Convalescents, Nursing Mothers, Sick Children, and in all Wasting Diseases.

Superior to any other preparation as a safe and pleasant appetizer and invigorant, and as a food in

TYPHOID FEVER.

WARNING.

ACCIDENTALLY SHOT	**4**	**DISLOCATIONS**	**18**
		MISCELLANEOUS	**176**

SPECIMEN CLAIM.

On December 1st, 1888, Dr. Frederick Leggenhagger, of Utica, N. Y., while attending a patient suffering from diphtheria, was scratched by a pin concealed in the patient's clothing. The injury in itself was trivial. Septic matter was, however, introduced at the time of the injury, blood poisoning ensued, and the doctor died on **December 4th,** only three days after the accident. Proofs were presented to The Travelers, of Hartford, for the principal sum under an Accident Policy for **$15,000** which he held in that company, being received at the home office on the forenoon of **December 19th,** and on the afternoon of the same day a check for the full amount was mailed to the beneficiary.

RATES.

$5,000 in case of accidental death, and $25.00 per week, costs $25.00 per year.

$10,000 in case of accidental death, and $50.00 per week, costs $50.00 per year.

LACTOPEPTINE.

The most important Remedial Agent ever presented to the Profession for

Dyspepsia, Vomiting in Pregnancy, Cholera Infantum, Constipation, and all Diseases arising from Imperfect Nutrition.

LACTOPEPTINE precisely represents in composition the natural digestive juices of the Stomach, Pancreas, and Salivary Glands, and will, therefore, readily dissolve all foods necessary for the recuperation of the human organism.

LACTOPEPTINE

IS COMPOUNDED WITH

GENTIAN, IRON, STRYCHNIA, BISMUTH, QUINIA, CALISAYA, CINCHONA AND PHOSPHATES,

and various medications required in general practice, in the form of ELIXIRS, SYRUPS, LIQUIDS, ETC.

SPECIAL NOTICE TO THE MEDICAL PROFESSION.

Whenever satisfactory results are not obtained from the administration of Lactopeptine, we will consider it a favor if such facts are reported to us, for there can be no doubt that substitution of Pepsin or some of the cheap imitations of Lactopeptine has been practised, wherever the therapeutic activity of Lactopeptine is not uniformly demonstrated in its indications.

A "TALK ON PEPSIN."

WM. W. BARTLET.

There is a class of preparations on the market which claim, on their labels, to be pure pepsin, none of which that I have met with are pepsin at all. They occur in scale or plate, or so-called crystal form. I present for your inspection samples of some of them. If you will turn them bottom up you will find that they are solid in the bottles in which they are contained; and, if you will put your fingers into them, you will find that they are of a soft, pasty consistency, and wholly unfit for dispensing in powder form as directed on their labels; and if you will smell of them, you will be convinced that they are unfit for dispensing in any form. These preparations were in the form of scales originally, and changed to this pasty mass on standing in a cool, dry place in my store in uncorked bottles. They are soluble in water, and by Vittich's and other tests are, without a doubt, peptones, and should never be dispensed except where demanded by the physician.—From *Pharmaceutical Record,* Vol. 7, No. 22.

WE ADD A WORD TO THE WISE.

Fairchilds' Pepsin is not a peptone, it is not hygroscopic,
